9600 SERIES IP TELEPHONES

9611G Deskphone
Provide everyday users with enriched communications capabilities
- Enables efficient, high-speed call management through support for up to three 12 or 24 Button Expansion Modules
- Supports reduced energy consumption and costs through Power-over-Ethernet Class 1 design with “sleep mode”
- Delivers high-definition audio that can increase productivity by reducing fatigue and provides easier-to-understand multi-party calls using the wideband audio codec in the handset and headset
- Simplifies call control on the display using softkeys to transfer, conference and forward calls and to access everyday processes including third-party applications such as company-wide corporate directories
- Facilitates access to information through an easy-to-read, high resolution color display and a permanently labeled Navigation Cluster (Up/Down, Left/Right, OK)
- Delivers visual queues that can speed task management through 8 Red/Green LEDs
- Helps increase productivity through context-sensitive graphical interfaces
- Provides consistency through a common Avaya one-X® interface (including mobile endpoints)
- Offers flexibility through support of DECT Headsets and Bluetooth (with adapter)
- Provides choice through integrated Gigabit Ethernet and USB interface support
- Accommodates changing business needs with Session Initiated Protocol (SIP) based infrastructure

**D100 SIP DECT System**

The Avaya D100 SIP DECT system is a wireless solution that makes it simple to respond to customer needs whenever and wherever required. The Avaya D100 SIP DECT wireless telephone system integrates fully with IP Office to provide full access to system features. Utilizing next-generation digital wireless technology (DECT 6.0), the Avaya D100 SIP DECT wireless telephone system offers crystal-clear, high quality voice communication.

**D160 Handset**
The D160 Handset allows easy access to IP Office features with 2 x 24 display, 4 soft keys and 8 function keys. The battery capacity allows for 16 hours of talk time and 7 days of standby time.

The following telephony features are supported on the D160 Handset:
- Make and drop call • Conference (3 party via IP Office)
- Music-on-hold (via IP Office) • Redial • Button programming
- Mute • Voicemail access • Call forwarding (via IP Office)
- Transfer • Emergency call • Hot desking

**D100 Base Station**
The D100 Base Station is connected to the IP network and powered by Power-over-Ethernet (PoE). Customers without PoE switch can purchase PoE injectors, such as Avaya’s SPPOE-1A, to power the D100 base station.

The radio coverage for the D100 base station is 100-350 ft indoor and 700 ft in open field. Up to 8 D160 handsets can register to each base station.

**D100 Repeater**
The D100 Repeater has a cell radio coverage of 100-350 ft indoor and 700 ft in open field. Up to 5 repeaters can be used with each base station. The D100 SIP DECT Wireless telephone system is approved in the following regions: US, Canada, European Union, Switzerland, South Africa, Turkey and Norway.

Overview
Avaya Vantage is the all-new dedicated desktop device that provides simple, instant, seamless & natural engagement. Users can fire up voice, chat, collaboration instantly through one touch connections with no unnatural breaks or pauses – eliminating the need to manage multiple devices in order to engage. Put your applications on this eye-catching, friendly device. It is perfect for use on desktops, in hotel rooms, healthcare facilities, kiosks – wherever users need to run their applications. Open integration and extensibility with the Avaya Breeze™ Client SDK means it’s easy to personalize Vantage for your industry, business, and users. Enable unique custom experiences that mesh into your workflows and business processes using this powerful, customizable device – and enjoy the advantages of a deskphone and flexibility of an application platform.

BENEFITS:

Improved and Customized User Experience
Customers are looking for fast & unique customization to business-enable their applications – achieved through the use of Avaya Breeze™ Client SDK.

Provides natural engagement
In sync with the present day multi-channel communication needs, eliminating the need to own multiple devices that give rise to communications silos.

Ease of use
Provides simplified user interface on large touch screen displays and eliminates unnatural workflows or pauses during communications.

Media Stations

E159/E169 Media Stations
Using personal smartphones and tablets for business (known as “Bring Your Own Device”) is practiced almost everywhere today. From small businesses to the largest global enterprises, many employees rely on their own mobile devices to stay connected, productive, and efficient while working. Now, when on-the-go employees are in the office, the Avaya E159 and E169 Media Stations enable them to continue to use their mobile device. Use an Avaya E159 or E169 Media Station as a standard SIP desk phone on its own. Or, dock your Apple iOS or Android smartphone or tablet, log in via the Media Station app, and turn your mobile device into an enterprise-grade communications tool. They feature superb audio quality, a secure connection to your network, and the calling features you need most – all via an easy-to-use interface on your smart device.

BENEFITS:

Enhanced productivity
Mobile workers continue to use the device they’re most comfortable with to stay connected and responsive.

High quality audio experience
Voice and video calls are enhanced with superior quality sound built into the E159 and E169 Media Stations.

Secure, integrated communications
Standards-based SIP support delivers basic call handling features and acts like a SIP endpoint on the network so it’s easy to manage and administer securely.

715-672-4200
The Badger Communications team is available Monday-Friday 8am-4:30pm.

Technical and Design Support
The Badger Support Team will help you understand which hardware and software your Avaya systems need to ensure your customer has the features they need.

Save time and headache on your next install by having the Badger team pre-program your next Avaya system.

TRAINING
Choose our introductory classes to refresh or take your first steps into the world of Avaya and IP Office.

You can even sell an IP Office and program it during training at Badger.

**Mitel 6800 SIP Phone Series Expansion Modules**

**M685 Expansion Module**
The M685 features a color LCD screen and 28 programmable keys, with the ability to scroll through three pages of programmed entries.
- Supported on the 6865, 6867 and 6869
- 28 programmable softkeys with LEDs
- 4.3” 480x272 pixel color backlit LCD display
- Can be daisy chained with the M680 for a combined total of up to 3 modules
- Powered by the phone—no separate power adapter required

BADGER PART NUMBER:
- 50006820 Aastra Branded M685i expansion module
- 80C00007AAA-A Mitel Branded M685i expansion module

**M680 Expansion Module**
The M680 is compact, cost-efficient, and provides 16 additional programmable keys with built-in LEDs.
- Supported on the 6865, 6867 and 6869
- 16 programmable keys with LEDs
- Paper insert labeling
- Can be daisy chained with the M685 for a combined total of up to 3 modules
- Powered by the phone—no separate power adapter required

BADGER PART NUMBER:
- 80C00010AAA-A M680i expansion module

**Mitel 6800 SIP Phone Series Accessories**

**K680 Detachable Magnetic Keyboard**
The K680 Detachable Magnetic Keyboard magnetically attaches to the 6867 and 6869 models to allow easy and quick navigation through features and directories.
- Magnetically connects to phone
- QWERTY, QWERTZ, AZERTY versions
- Powered by the phone—no cables or batteries required

BADGER PART NUMBER:
- 80C00008AAA-A K680 detachable magnetic keyboard

**Wall-Mount Kit**
All Mitel 6800 Series SIP phones can be wall-mounted safely and securely. The wall-mount kit has a two piece slide-and-lock design and includes a short Ethernet cable, making installation simple and efficient.
- 2 fixed angles to choose from: 10° and 20° (6869 offers 20° angle only)

BADGER PART NUMBER:
- 80C00011AAA-A 6800i Wall Mount Kit

**AC Adapter**
Mitel (48v) AC Adapters are energy efficient Level V compliant with a choice of regional interfaces – support for 100-240VAC and 47-63Hz inputs.

BADGER PART NUMBER:
- 50006822 AC Power Supply - L5 48V NA (67XX,68XX)
The Mitel 6725 Lync Phone is optimized to work with Lync™, Microsoft’s Voice IP PBX solution. The Mitel 6725 Lync Phone features the embedded phone addition, offering access and interoperability with Microsoft’s Lync Server R 14 software. The Mitel 6725 Lync Phone supports dual Gigabit Ethernet interfaces, PoE, a rich color display and support high definition audio. Additionally, the Mitel 6725 Lync Phone has an optional USB cable which, when connected to the users PC, provides a further level of integration including click to dial off any phone number displayed on the PC.

Mitel 6725 Lync Phone
The Mitel 6725 Lync Phone is a user-friendly IP phone that can operate as a stand-alone Microsoft Communications Server 14 endpoint. When connected to a Microsoft Communicator 14 equipped desktop, it provides a tight integration with the desktop client.
- Embedded Microsoft Communicator Phone Edition Software
- Color screen
- Direct desktop integration
- Personal presence indicator
- USB interfaces
- Speakerphone
- Standalone operation
- Dual gigabit Ethernet ports
- Support for Microsoft’s “Better Together” desktop link
- PC Desktop control of phones calling features such as transfer, hold, call park conferencing and click-to-dial

Mitel High-Angle Stand Accessory
The Mitel High Angle stand is an optional accessory for the 6700 Series of SIP phones that increases the viewing angle of the phone up to a maximum of 60 degrees. This stand has been designed to address the needs of those users who prefer to have the phone at a higher incline as a way to enhance the position of the display for an optimal viewing experience, and to optimize the position of phone’s handset and keys.

• 4 different viewing angles are supported: approximately 30, 40, 50 and 60 degrees
• Easy snap-on installation with wobble reduction mechanism
• Slip-resistant rubber feet, which provide a secure grip on most desktop surfaces
• Provides quick and easy access to phone’s back panel connectors
• Compatible with Mitel 6735, Mitel 6737, Mitel 6739, Mitel 6725 Lync Phone

BADGER PART NUMBER:
D0080-1659-00-75 Charcoal, High-Angle Stand

Wall Mount Kit for Mitel 6700 SIP Phones
The optional wall mount kit for the Mitel 6700 SIP phones enables easy installation for the following models
- Mitel 6735, Mitel 6737, Mitel 6739. Provides solid and secure connection to most wall mounting plates and positions phone at a 20 degrees incline enabling easy reading of the LCD display. Supplied with wall mounting screws and anchors, 8 inch Ethernet cable and installation instructions.

Included With Each Wall Mount:
- Template for screw location • Mounting screws and anchors to connect to wall
- Handset clips to secure phone on hook • Simple installation guide • 8.7 inch Ethernet cable

**Mitel SIP-DECT - Mobility Solution**

**Powerful Features And Performance In A SIP Based DECT Enterprise Mobility Solution**

Employing the latest DECT technology, Mitel SIP-DECT offers superior levels of performance, security and reliability in a cordless SIP telephone system. This scalable, Enterprise-grade, mobility solution allows users to take the features and voice quality of their desk telephones with them throughout their office environment or related branch offices serviced by the same corporate network. DECT technology virtually eliminates issues of dropped calls, interference, security and range by employing RFP base stations that seamlessly “handoff” calls and enable roaming. This system is ideal for any single or multi-location business, retail or institutional setting that requires mobile employees to be available to take or receive calls at any time.

**Key Solution Highlights Include:**
- Seamless Mobility – handsets act as normal company extensions, allowing staff to be reached in both headquarters and branch office locations.
- Feature Rich Handsets – provide most desk phone features and more.
- Scalability – by simply adding additional handsets and access points, Mitel SIP-DECT can easily expand to meet changing business requirements.
- Simplified Deployment – can be easily deployed in most open-standard IP environments including: Hosted or Premised-based using a SIP-based IP-PBX, Hybrid PBX or Open Source PBX.
- Authorization/Certification and demo kit purchase required. (Demo Kit purchased directly from Mitel with 2 handsets, (2) RFP L35’s, (1) OMM 4.0).

**SIP-DECT Handsets**

**Mitel 612 DECT Handset**
- High-quality entry-level SIP-DECT wireless handset
- Redial list for quick access to the last 201 numbers dialed
- Optimum overview and user-friendly menus
- Large LCD display (2”, 220 pixels, monochrome) with backlight
- Up to 200 contacts in the local phone book with 8 inputs each*
- SOS key for emergency speed dial number
- Phone directory for 200 contacts
- Universal AC adapter • Charcoal and Silver
- 44 polyphonic ring tones
- Ambient noise filter for loud environments

**BADGER PART NUMBER:**
80E00011AAA-A

*Depending on the system.

**Mitel 622 DECT Handset**
- High-quality business-level SIP-DECT wireless handset
- Many freely programmable keys for easy navigation
- Up to 200 hours operating time in standby mode*
- Large color LCD display (2”, 176 x 220 pixels; 65,536 colors) with backlight
- Built-in Bluetooth® interface for advanced connectivity with cordless headsets
- Universal AC adapter • Charcoal and Silver
- TFT color display • USB interface

**BADGER PART NUMBER:**
80E00012AAA-A

*Depending on the system.

### Teledex E Series

Originally styled to meet the limited space and energy requirements aboard cruise ship cabins, E Series hotel phones are amazingly big on features, yet surprisingly small in size. Interior designers appreciate the sophisticated extra thin, ultra-stylish body while guests enjoy the familiar, comfortable feel of a sleek, modern handset. Available in single and two-line, analog, VoIP, corded, and cordless configurations with or without built-in USB charging ports. Available in Black.

Teledex Opal Series
Opal Series offers a recognizable international design that complements modern guest room décor. Available in single and two-line, analog, corded and cordless configurations, with optional speakerphone, and 0, 3, 5, or 10 programmable guest service keys. Opal DCT Series cordless sets support up to 3 additional AC-powered RediDock handset charging stations giving your guests the ability to charge their handset from multiple places within the room. Choose Black or Ash.

**Teledex Diamond Series**

This is the phone that started it all. In fact, more hotels use Teledex Diamond Series hotel phones than all other guest room telephones combined. With over 5 million in service worldwide, this corded analog phone is available in single or two-line models, with up to 10 programmable guest service keys, patented OneTouch voice mail retrieval technology, and an optional speakerphone. Expect to see this model in hotel rooms for years to come. Available in Black or Ash.

**TeleMatrix 9600/3300 Series**

Beautifully engineered, 9600 Series phones are still the most popular cordless hotel phones in the world. 9600 Series has a proven record of rugged dependability, complemented by a rich feature set. Available in single and two-line analog or VoIP cordless configurations together with 3300 Series single and two-line analog and VoIP corded telephones with 7 optional standard handset accent colors, and matching 3300TRM or 3300IP-TRM trimline sets. Available in Black or Ash.
Teledex D Series
Fresh design. USB charging. Same faceplate!
How do you improve upon Diamond Series, the most popular hotel phone in the world for 33 years running? We began the development of D Series with a fresh new contemporary design, robust ergonomic open handset, and guest smart device USB charging ports, but maintained the same Diamond faceplate area ... so Diamond Series owners may easily upgrade with existing faceplates, or receive free faceplates with your 50+ phone order (Continental U.S. only).

Teledex Nugget Series
No frills. No extras. Just a quality hotel phone that fits any budget and will leave extra room on your nightstand. Teledex Nugget Series hotel phones combine classic design, easy-to-use functionality, and rugged durability into a small footprint that makes a large impact. Equipped with either 0 or 3 programmable guest service keys, a raised red LED message-waiting light, and a dial pad that is tucked away leaving extra room for a customizable faceplate. Choose Black or Ash.

You can even sell an IP Office and program it during training at Badger.
Spectralink 70-Series Enterprise Mobile Solutions

Spectralink 7000 Portfolio Wireless DECT Handsets
Cost-effective, flexible and user-friendly Enterprise Mobile solutions.
The Spectralink 7000 Portfolio is built on the international DECT (Digital Enhanced Cordless Telecommunications) standard, providing a cost-effective, highly-secure and reliable wireless mobile communication solution.

- Dramatically improve responsiveness and productivity of mobile workers - anytime, anywhere within the work environment
- Maximize employee availability using high quality feature rich, reliable and durable handsets
- Support integration with an extensive list of third-party applications to maximize performance and productivity in key verticals such as healthcare, long term care, hospitality, retail, manufacturing, warehouse & logistics, etc.
- Deliver high-quality and secure voice communications across the entire enterprise environment
- Leverage investment in legacy or IP/SIP PBX features whether on-premise, in data centers, or even the cloud and enable your mobile workforce to access telephony platform functionality wherever they may be

72-Series
The 72-Series are designed for long-term dependability and increased mobility in specialised working environments. The functionalities of the robust and feature-rich handsets make them a valuable working tool for personnel within industries such as retail and healthcare. Moreover, the flexible menu structure allows the handsets to be customised to specific vertical markets.

BADGER PART NUMBER:
2601000  7202 Handset 1G9, includes battery. Order charger and power supply separately
2611000  7212 Handset 1G9, includes battery. Order charger and power supply separately

75-Series
The elegant and robust 75-Series has a large color screen and intuitive user interface making it a valuable working tool and a preferred choice for mobile workers in administrative working environments across various vertical markets.

BADGER PART NUMBER:
2621000  7522 Handset 1G9, includes battery. Order charger and power supply separately
2631000  7532 Handset 1G9, includes battery. Order charger and power supply separately

76-Series
The ruggedized 76-Series combines maximum functionality and elegant design with high durability. The IP64 classified handsets are resistant to dirt, dust-proof, and splashing water, and are designed to meet the needs of a mobile workforce in harsh working environments such as car garage / mechanic shops, industrial, logistics, retail, and warehouse.

BADGER PART NUMBER:
2641000  7622 Handset 1G9, includes battery. Order charger and power supply separately
2651000  7642 Handset 1G9, includes battery. Order charger and power supply separately

77-Series
The disinfectant-resistant 77-Series combines mobility and hygiene. The application-enabled handsets are supporting Duress/Panic alarm, running, tilt and no movement notification, tear-off string alarm, as well as man-down functions, designed to enable healthcare personnel to be mobile while still within quick reach in critical situations.

BADGER PART NUMBER:
2661000  7722 Handset 1G9, includes battery. Order charger and power supply separately
2671000  7742 Handset 1G9, includes battery. Order charger and power supply separately

Butterfly Series Handsets
The Spectralink Butterfly Series combines high quality and usability with stylish design. The user-friendly handset is designed especially for office environments, and offers the most important features with standard voice communication and messaging. Experience exceptional voice quality without any background noise, echo, or delay and a best-in-class grip due to the sleek and slender design of the handset. Available in black & white to distinguish employee groups or your business’ personality. Supported on Skype for Business Server.

Spectralink 84-Series mobile solutions improve productivity and responsiveness for on-site mobile professionals across a wide range of industries, including healthcare, retail, manufacturing and hospitality. Built on open standards, the Spectralink 84-Series transforms the delivery of mobile enterprise applications by bringing the power of thin client and browser technology to front-line professionals in an easy-to-use and easy-to-manage interface.

Additionally, the Spectralink 84-Series supports the industry’s broadest range of interfaces to enterprise-grade PBXs, wireless LAN, infrastructures to deliver maximum interoperability with the lowest total cost of ownership in the industry.

Superior Voice Quality
The 84-Series includes Spectralink’s market-leading VQO (Voice Quality Optimization), that delivers superior voice quality over in-building, enterprise Wi-Fi networks, ensuring crystal-clear communication every time.

Wireless Infrastructure
Third-party enterprise-grade access points provide unlimited coverage throughout the facility. These access points are certified though the Spectralink Voice Interoperability for Enterprise Wireless (VIEW) program. Wi-Fi Standard QoS is used to manage prioritization of voice packets and provide the required voice quality on the wireless network.

Telephony Interfaces
Spectralink 84-Series handsets are powered by unified communications software which allows full-featured integration with all major SIP call platforms, including Microsoft Lync®. Certified third-party gateways allow integration with traditional enterprise PBXs. Interoperability is fully tested and documented in the Spectralink 84-Series Call Server Matrix.

Application Integration
The embedded XML API and WebKit browser enable real-time, two way communication between wireless handsets and third-party applications.

Handsets
The Spectralink 8440 is the baseline VoWLAN product for vertical markets. It delivers on a fundamental need for enterprise-grade on-site voice mobility. The Spectralink 8452 enhance the customer value proposition with an integrated barcode reading capability.

The 84-Series handsets offer a full breath of call handling features, optional push-to-talk (PPT) and paging, instant messaging and IM support via Microsoft Lync and real time location services (RTLS).

**ErisStation® Conference Phones with Wireless Mics**

**VCS754**  
**ErisStation® SIP Conference Phone with Four Wireless Mics**

Whether you're already running your business with a SIP phone system or getting ready to make the move, you can extend your coverage all the way to the conference room with the VTech ErisStation SIP conference phone. It comes with four removable DECT 6.0 microphones that feature Orbitlink Wireless Technology™. Unlike traditional conference phones, ErisStation lets everyone spread out and speak without having to gather around the phone or raise their voices. Advanced audio features, such as acoustic echo cancellation, automatic gain control and dynamic noise reduction, deliver premium, interference-free sound quality. Plus, integrated design makes it easy to charge the microphones right in the base and keep everything together.

- Full-duplex speakerphone in base.
- Support for up to three SIP lines/accounts
- User-friendly interface, large backlit display, three soft keys and navigational pad
- USB connection for using a PC based softphone or speaker.
- G.722 wideband codec support for HD audio
- Includes 2 fixed microphones and 4 DECT 6.0 wireless microphones with Orbitlink Wireless Technology™
- Up to 8 hours of talk time for each microphone
- Up to 70 hours of standby time for each microphone
- Magnetic charging bays in the base
- Two-year warranty
- Automatic gain control, digital mixing & volume control: 10 levels
- 3-way local conference
- N-way network conference
- Local phonebook up to 200 entries
- Call history up to 200 entries

80-9755-00 Replacement Microphone for VCS754

* Use of Caller ID features requires subscription from your telephone service provider.

**VCS752**  
**ErisStation® SIP Conference Phone with Two Wireless Mics**

Whether you run a small business from a home office, or collaborate in a large conference room, the VTech ErisStation SIP conference phone uses Bluetooth® and DECT 6.0 technology for frustration-free calls and meetings. The system serves as a personal workspace device, while replacing the need for a separate deskset and conference phone. Connect your cell phone, or pair a Bluetooth or DECT headset with the speakerphone for hands-free and/or private calls. The VCS752 can go beyond the office, and work in any-size conference room. The system—with one fixed built-in mic and two wireless mics with Orbitlink Wireless Technology™—can support nine or more active participants in a small conference room. Or, it can easily scale up with the accessory VCS850 SIP DECT Expansion Wireless Speakerphone to handle 27 or more active participants. Now, you can clearly hear, and spread out and speak without shouting.

- Full-duplex speakerphone in base
- Up to 12 hours of talk time per wireless microphone
- Up to 70 hours of standby time per wireless microphone
- Built-in wireless microphone charging bays in base
- Bluetooth connectivity for headset and mobile devices
- DECT 6.0 wireless microphones with Orbitlink Wireless Technology
- Supports up to 3 SIP account registrations
- 10 ring tones/melodies; 10 ring levels
- Local phonebook up to 200 entries
- 3-way local conference
- N-way network conference
- Call barring/blocking (block anonymous/ blacklist)

VCS850
ErisStation® SIP DECT Expansion Wireless Speakerphone

When you need to increase the number of active participants on a call, just add up to three expansion wireless speakerphones to the VCS752 ErisStation SIP Conference Phone. No wires or complicated cords required. Ideal for medium to larger conference rooms, each expansion wireless speakerphone includes two built-in mics, and can be placed around the table. Because of DECT 6.0 technology, participants can spread out and easily be heard without shouting or moving closer to the mics. The full-duplex speakerphones ensure that participants on both ends of the call can clearly hear. Plus, the speakerphone features up to 12 hours of talk time to support long meetings.
- Full-duplex speakerphone in base
- Includes two fixed microphones
- DECT 6.0 wireless connection to VCS752 base
- Pair up to 3 expansion speakerphones per VCS752 base
- Up to 12 hours of wireless talk time
- Up to 70 hours of standby time

**Wi-Fi Routers**

**VNT832**  
VTech 4 Port N300 Wi-Fi Router  
Connect your home office or small business with the VTech 4 Port N300 Wi-Fi Router. Its ultra-fast 300 Mbps wireless speed allows you to stream HD video or surf the internet over one local network—without interruption. Plus, advanced wireless security, like a built-in firewall, secures your internet traffic and guards you against viruses.  
- Wireless access control (MAC based)  
- Radio power selection  
- WAN modes (dynamic, static, PPPoE, IPoE, bridge)  
- DHCP server, relay, off  
- MAC address reservation  
- 2-year standard warranty  
**BADGER PART NUMBER:** 80-0554-00

**VNT846**  
VTech AC1600 Dual Band Gigabit Wi-Fi Router  
The VTech AC1600 Dual Band Gigabit Wi-Fi Router meets the digital demands of your home or small business. Beamforming technology increases Wi-Fi range and reduces deadspot interference. Thanks to 300+1300 Mbps wireless speed, your family or employees can stream HD video, transfer large files or make video conference calls from multiple devices at the same time. Plus, advanced wireless security, like a built-in firewall, secures your internet traffic and guards you against viruses.  
- Wireless access control (MAC based)  
- WAN modes (dynamic, static, PPPoE, IPoE, bridge)  
- 2-year standard warranty  
**BADGER PART NUMBER:** 80-0551-00
