Viewbiquity Edge Gateway

Smart Home

Clear2there offers full-featured home automation packages to service providers. Clear2there also offers the most cost effective and energy efficient centralized video storage solution in the industry. With InfiniVi, in your data center/central office, you can take advantage of the direct network connection to your customers and provide them with remote video storage services at prices your competition cannot match.

Smart Business

Viewbiquity is the platform that enables you to provide your small business customers with value-added automation and energy management solutions that increase their efficiency and reduce costs. Services for businesses go beyond residential and can include advanced capabilities such as energy phase management, Video Integrated Point-of-Sale, HVAC, commercial equipment monitoring and more. Just like the home, Clear2there's business automation suite, powered by Viewbiquity, can be branded by you.

Technology at work for you

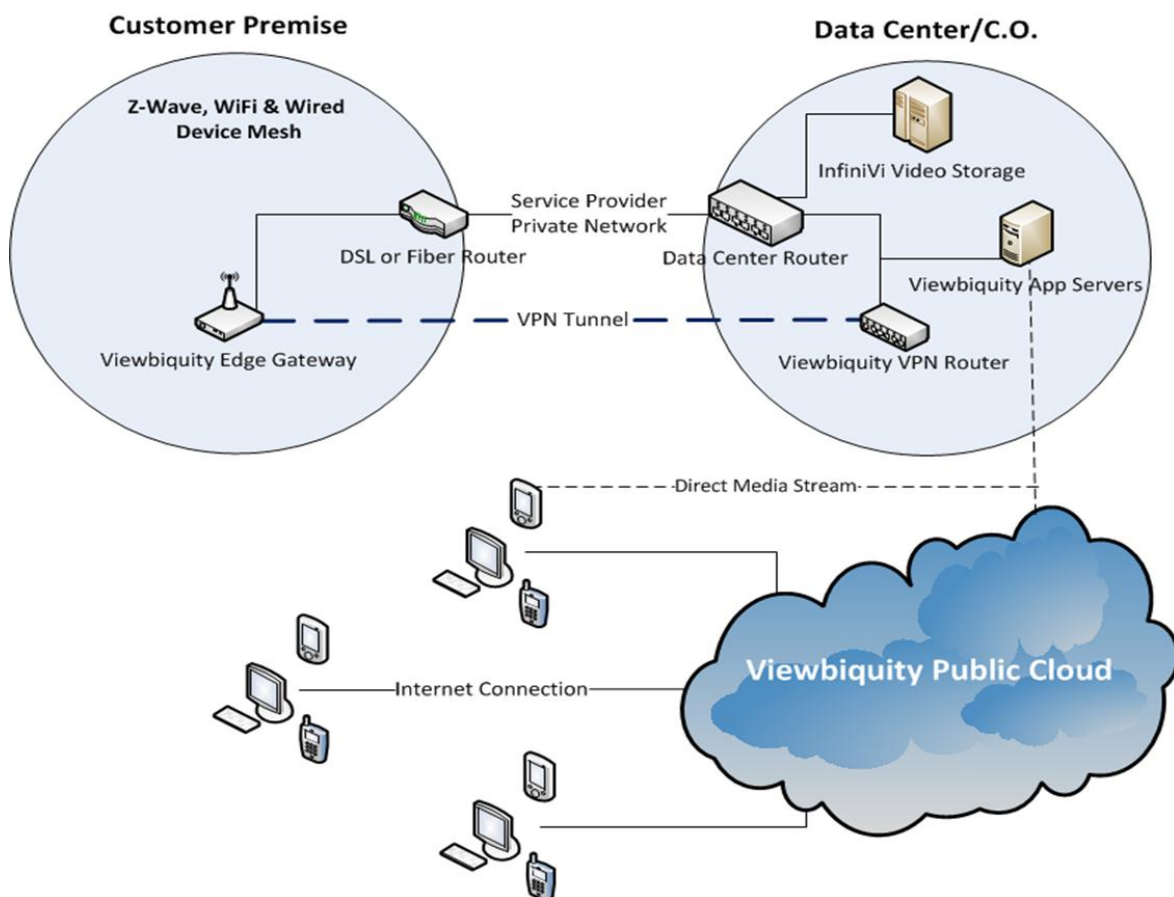

Clear2there, Viewbiquity and InfiniVi work together to create seamless Automation, M2M and Online Video Storage Hosting Solutions.

VIEWBIQUITY is an open architecture ecosystem that enables automation, energy management, productivity and M2M systems to be created and deployed in JavaScript and HTML. The VIEWBIQUITY platform enables you to easily and efficiently deliver both pre-packaged and customized value-added services to your customers *under your brand*.

INFINIVI is the most cost-effective, energy efficient, centralized media storage solution on the market today. As a service provider, you already have the advantage of the "last mile" connection to your customers. Use INFINIVI to offer an offsite video storage solution hosted at your data center that your customers will love and your competition cannot match.

LEVERAGE YOUR FTTX NETWORK DEPLOYMENT

Take advantage of the secure, direct network connections you have with your subscribers today. Your investment in infrastructure and ownership of the "last mile", maximizes profitability potential and customer retention.

RELIABILITY

- REDUNDANCY ACROSS ALL PLATFORMS
- OPTIONAL HOSTED FOR VIEWBIQUITY AND MANAGEMENT
- ENERGY EFFICIENCY ON BOTH SOLUTIONS
- RAID 10 STORAGE FOR EXTREME RELIABILITY FOR VIDEO STORAGE WITH INFINIVI
- EXPAND COST EFFICIENT AS YOUR CUSTOMER GATEWAYS AND STORAGE GROWS
- HOT SWAPPABLE FOR 5 9'S UPTIME
- STATELESS HARDWARE
- GATEWAY EDGE TECHNOLOGY ASSURES MINIMIZING AT THE CUSTOMER PREMISE
- SECURITY AND ALARM MONITORING REMOTELY
- MANY ADDITIONAL SOLUTIONS

Deploy Smart Home and Smart Business solutions to your subscribers with the Clear2There Service Provider Platform.

We are experienced in the Service Provider industry. Our engineering focused solutions in automation, video-surveillance, software hosted services, and media storage will boost your revenues, maximize profits and allow you to control your destiny through customization and branding. You will not need specialized IT staff to manage our solutions.
