Sensaphone Alarm Monitoring Systems	
FGD-W600	Web600 - Web-based Monitoring & Alarm Notification - Connect up to six external sensors to monitor variety of equipment and conditions. Live status & history only a webpage away. Built-in web server for easy access to programming. Web600 will notify you by sending out email alarm messages and even text messages--up to eight people can be notified.
FGD-400	Flexible Desktop Series - monitoring systems for smaller, simpler applications! NEW-4 configurable inputs -has ability to customize voice messages; relay output can be programmed to operate automatically upon alarm; line seizure is standard feature; phone line monitoring--if disconnected, output relay is tripped
FGD-800	NEW-8 configurable inputs -same features as FGD-400
FGD-1400-CD (Clear Door) FGD-1400-SD Recommended for Central Office	Industrial Series - Rugged professional monitoring which combines all the features of Sensaphone 1104, but with significant enhancements that expand your monitoring & notification needs. These include custom voice message programming, rechargeable battery backup & ultra-low temperature sensing; sealed, weatherproof, lockable enclosure. Features 4 configurable inputs . Available in <u>Clear Door</u> or <u>Solid Door</u> enclosures*** *** <u>Both Clear Door & Solid Door made for indoor use, but can be used in outdoor temps that are "above" 32 degrees.</u>
FGD-1800-CD (Clear Door) FGD-1800-SD (Solid Door)	Industrial Series - Rugged professional monitoring which combines all the features of Sensaphone 1400, but with significant enhancements such as 8 extra channels. In addition to voice phone calls, the 1800 can send text messages to alphanumeric pagers & cell phones to deliver its alarm messages. It can even upload status & history info to a web server.
FGD-2000 Recommended for Multi- Site Central Office	Data Logging Capability - Multiple Sites - Sophisticated monitoring with user-recorded alarm messages! Has 8 configurable inputs able to contact via phone, fax, email, text messages to alphanumeric pager, or computer software compatible (if you dedicate a PC that is running 2000 software you can use PC to retrieve info for all sites) with Windows 3.1, 95, NT. Built in battery backup!
FGD-6700 EXPRESS II	Unparalleled features, flexibility, and expandability! Has 8 alarms and is exapndable to 40! Allows you to record your own voice for dial out alarms. Adjustable filter time. Rechargeable battery backup.
EXPRESS II-Exp.	Expansion Module - 8 Alarms per module
StationSitter	Pump Control -for Fill/Drain applications; alarm history/status web pages. 8 configurable inputs
Skymetry	Wireless with Web Access - no phone line; M2M control, status & programming via web page; pump control
SCADA 3000	Flexible Control, Expansion & Data Logging - expandable to 144 IO points; ladder programming; web page generation
FGD-2800 *	First Sensaphone system w/wireless sensing capabilities--works were facilities are often spread out across wide area
	* Accessories available for FGD-2800--please call and inquire at Badger - toll free 877-672-4200
